

Create, Mix, Master, And Now **Distribute**

Your Music from within your
Open Labs Production Station

ZIPBOX MEDIA

ZIPBOXMEDIA.COM/OPENLABS

Sell your music online.

Use your **Open Labs production station** to create music and ZIPBOX Media to **distribute your music**. Your fans can purchase and download your music through our protected downloader. Add and rearrange songs and albums at will. Set your prices and change them at any time. Sell text, images or any other type of media, not just music.

Count sales on Billboard's charts.

Sales are reported to Nielsen's SoundScan™ so Billboard Magazine will capture your sales figures. We provide UPC and ISRC codes as a part of your subscription.

Design your site.

Our "CMS" allows you to design and populate your site however you wish. Your store will have its own unique hostname. For example, ***yourstore.zipboxmedia.com*** could be your store's location.

If you own a domain name we will host your site on that domain at no extra charge.

Set your own prices.

Set and change the prices of your songs and albums at any time. Songs can be as little as .68¢ per download and albums as little as \$3.99. Track your sales in real-time and know what sold at what price instantly.

Your revenue is 75% of everything you sell with ZIPBOX Media because It's Your Money.

Use our secure shopping cart.

A secure shopping cart with built in convenience features allows customers to set spending limits and save their payment method for later use.

Get paid each month.

ZIPBOX Media transfers money into your bank account each month. We want you to collect your revenue as soon as possible.
